Work Experience

Full Stack Developer

Research Foundation CUNY - Albany, NY

June 2022 to Present

Full Stack Developer - Developed web applications based on specifications provided for CUNY RF's LMS (Learning management system) using HTML, CSS, Javascript, jQuery, MSSQL, and Cold Fusion. Maintained and created databases in MSSQL, and tested applications to identify defects in code and documentation.

Full Stack Developer

Chalkboard - Albany, NY

December 2020 to May 2022

Full Stack Developer - Chalkboard is a web based testing tool that can manage and administer tests. A RESTful API built with NodeJS, ExpressJS and MySQL, deployed to Azure. While working in this collaborative environment I used scrum metrics to deliver committed work and Github for version control.

Full Stack Developer

AATLAS - Albany, NY

February 2019 to November 2020

Full Stack Developer - Developed a web application for AATLAS using responsive web designs and development principles. Brought mockups to life as requested. I collaborated closely with the program to provide support during all delivery phases. Monitoring the website performance and fixing front-end-related issues. HTML/JS/CSS/WordPress

Education

B.S. in Computer Science

SUNY at Albany - Albany, NY

August 2016 to May 2020
